

CASCO BAY ARTISANS

INTERNATIONAL FINE ART GALLERY

Suzanne deLesseps

After retiring from 30 years as a landscape gardener, I am now able to devote my time to what I love most, painting and traveling. I travel with other artist friends to paint in France, Italy and the Western US. As an artist, I find the change of scenery and culture both challenging and exciting. The experiences and memories are my fuel for the winter months when I find myself in the studio more often than not.

My mediums are pastel and oil. My work is always evolving and changing as I set new goals and discover new ways to interpret and respond to the environment around me. I paint en plein air as often as possible gathering information that later serves as inspiration for more intuitive painting and experimentation in the studio. Then the journey becomes about the process of painting. The outcome is often unknown and that's what makes it exciting!
